EXPERIENCE

GRO Marketing, Detroit, MI

Full Stack Developer February 2023 - PRESENT

- Spearheaded the end-to-end development of a full-stack application, optimizing digital marketing workflows and enhancing campaign management.
- Architected backend infrastructure on AWS, utilizing RESTful APIs, and integrating both MySQL and NoSQL databases to support diverse data needs.
- Designed and implemented a shared caching layer for the organization's largest dataset, ensuring real-time freshness, consistency across sessions, and significantly reducing backend load.
- Expanded frontend development in TypeScript, refactoring major components for stronger type safety, maintainability, and scalability..
- Enhanced performance of React Query-based data flows by optimizing cache invalidation, enabling more reliable and responsive user experiences.
- Streamlined operations by developing automated processes for customer onboarding, deal management, contract merging, and client communication workflows.
- Engineered a responsive and dynamic user interface, with real-time updates for live contract and campaign tracking.
- Emphasized scalability and maintainability, writing optimized code to ensure long-term performance.
- Integrated multiple external services into the platform, reducing dependency on third-party solutions and optimizing cost savings.
- Utilized Git and standard-version for version control, ensuring comprehensive documentation and traceability throughout the application lifecycle.
- Coordinated phased testing and successfully deployed the application within an 8-month timeline from inception to production.

Lightspeed Delivery, LLC Hamburg, MI

Owner

January 2010 - March 2023

- Founded and operated a successful freight expediting company, driving steady growth and expanding client relationships for over a decade.
 - Leveraged tools like QuickBooks, Excel, and custom quote sheets with API integrations to streamline operations and financial reporting.
 - Maintained accurate business data using Python and JavaScript for efficient analysis and decision-making.
 - Designed and implemented a sophisticated pricing model that improved operational clarity and optimized profitability.
 - Achieved consistent year-over-year revenue growth and sustained high customer satisfaction.
 - Maintained strong client communication and developed long-lasting partnerships, prioritizing reliability and responsiveness.
-

EDUCATION

Washtenaw Community College, Ann Arbor, MI

Computer Engineering

January 2006 - December 2008

TECHNICAL SKILLS

Languages & Frameworks: TypeScript, JavaScript (ES6+), React, Node.js, Python

Cloud & Infrastructure: AWS (EC2, S3, DynamoDB), WebSocket, Apache2, PM2, Caching Strategies

Development Tools: Git, ESLint, React Query, Standard-Version

Integrations & APIs: PandaDoc, Slack, Google APIs, AWS, Zoho CRM
